

Very Simple: Catalog

**We Produce:
Simple, Colorful,
Modular Kitchens.**

Intro

Very Simple: Kitchen is an Italian furniture brand that through products and experiences, designed and manufactured with an innovative vision of the industry, offers modular solutions for contemporary lifestyles. The brand was born from a reinterpretation of the modular kitchen concept, reducing its unnecessary complexity and introducing a simple approach based on independent modules made in Italy from recycled steel.

Very Simple:

Kitchen

The kitchens are iconic and representative both of the brand and its community: simple, colorful and modular, designed with an innovative, sustainable and customizable approach. Our products are a combination of industrial style and simple forms with careful attention paid to the use of colors, materials and finishings.

**We design kitchens
that transform
spaces into places
of joy.**

Focus on features

Flexible

Modules are designed in different types and sizes, providing a great versatility which allows a kitchen to be configured to suit the most diverse spaces and usage requirements. Our kitchens are 'nomads', they can be modified and moved over time to follow your changing needs.

Focus on features

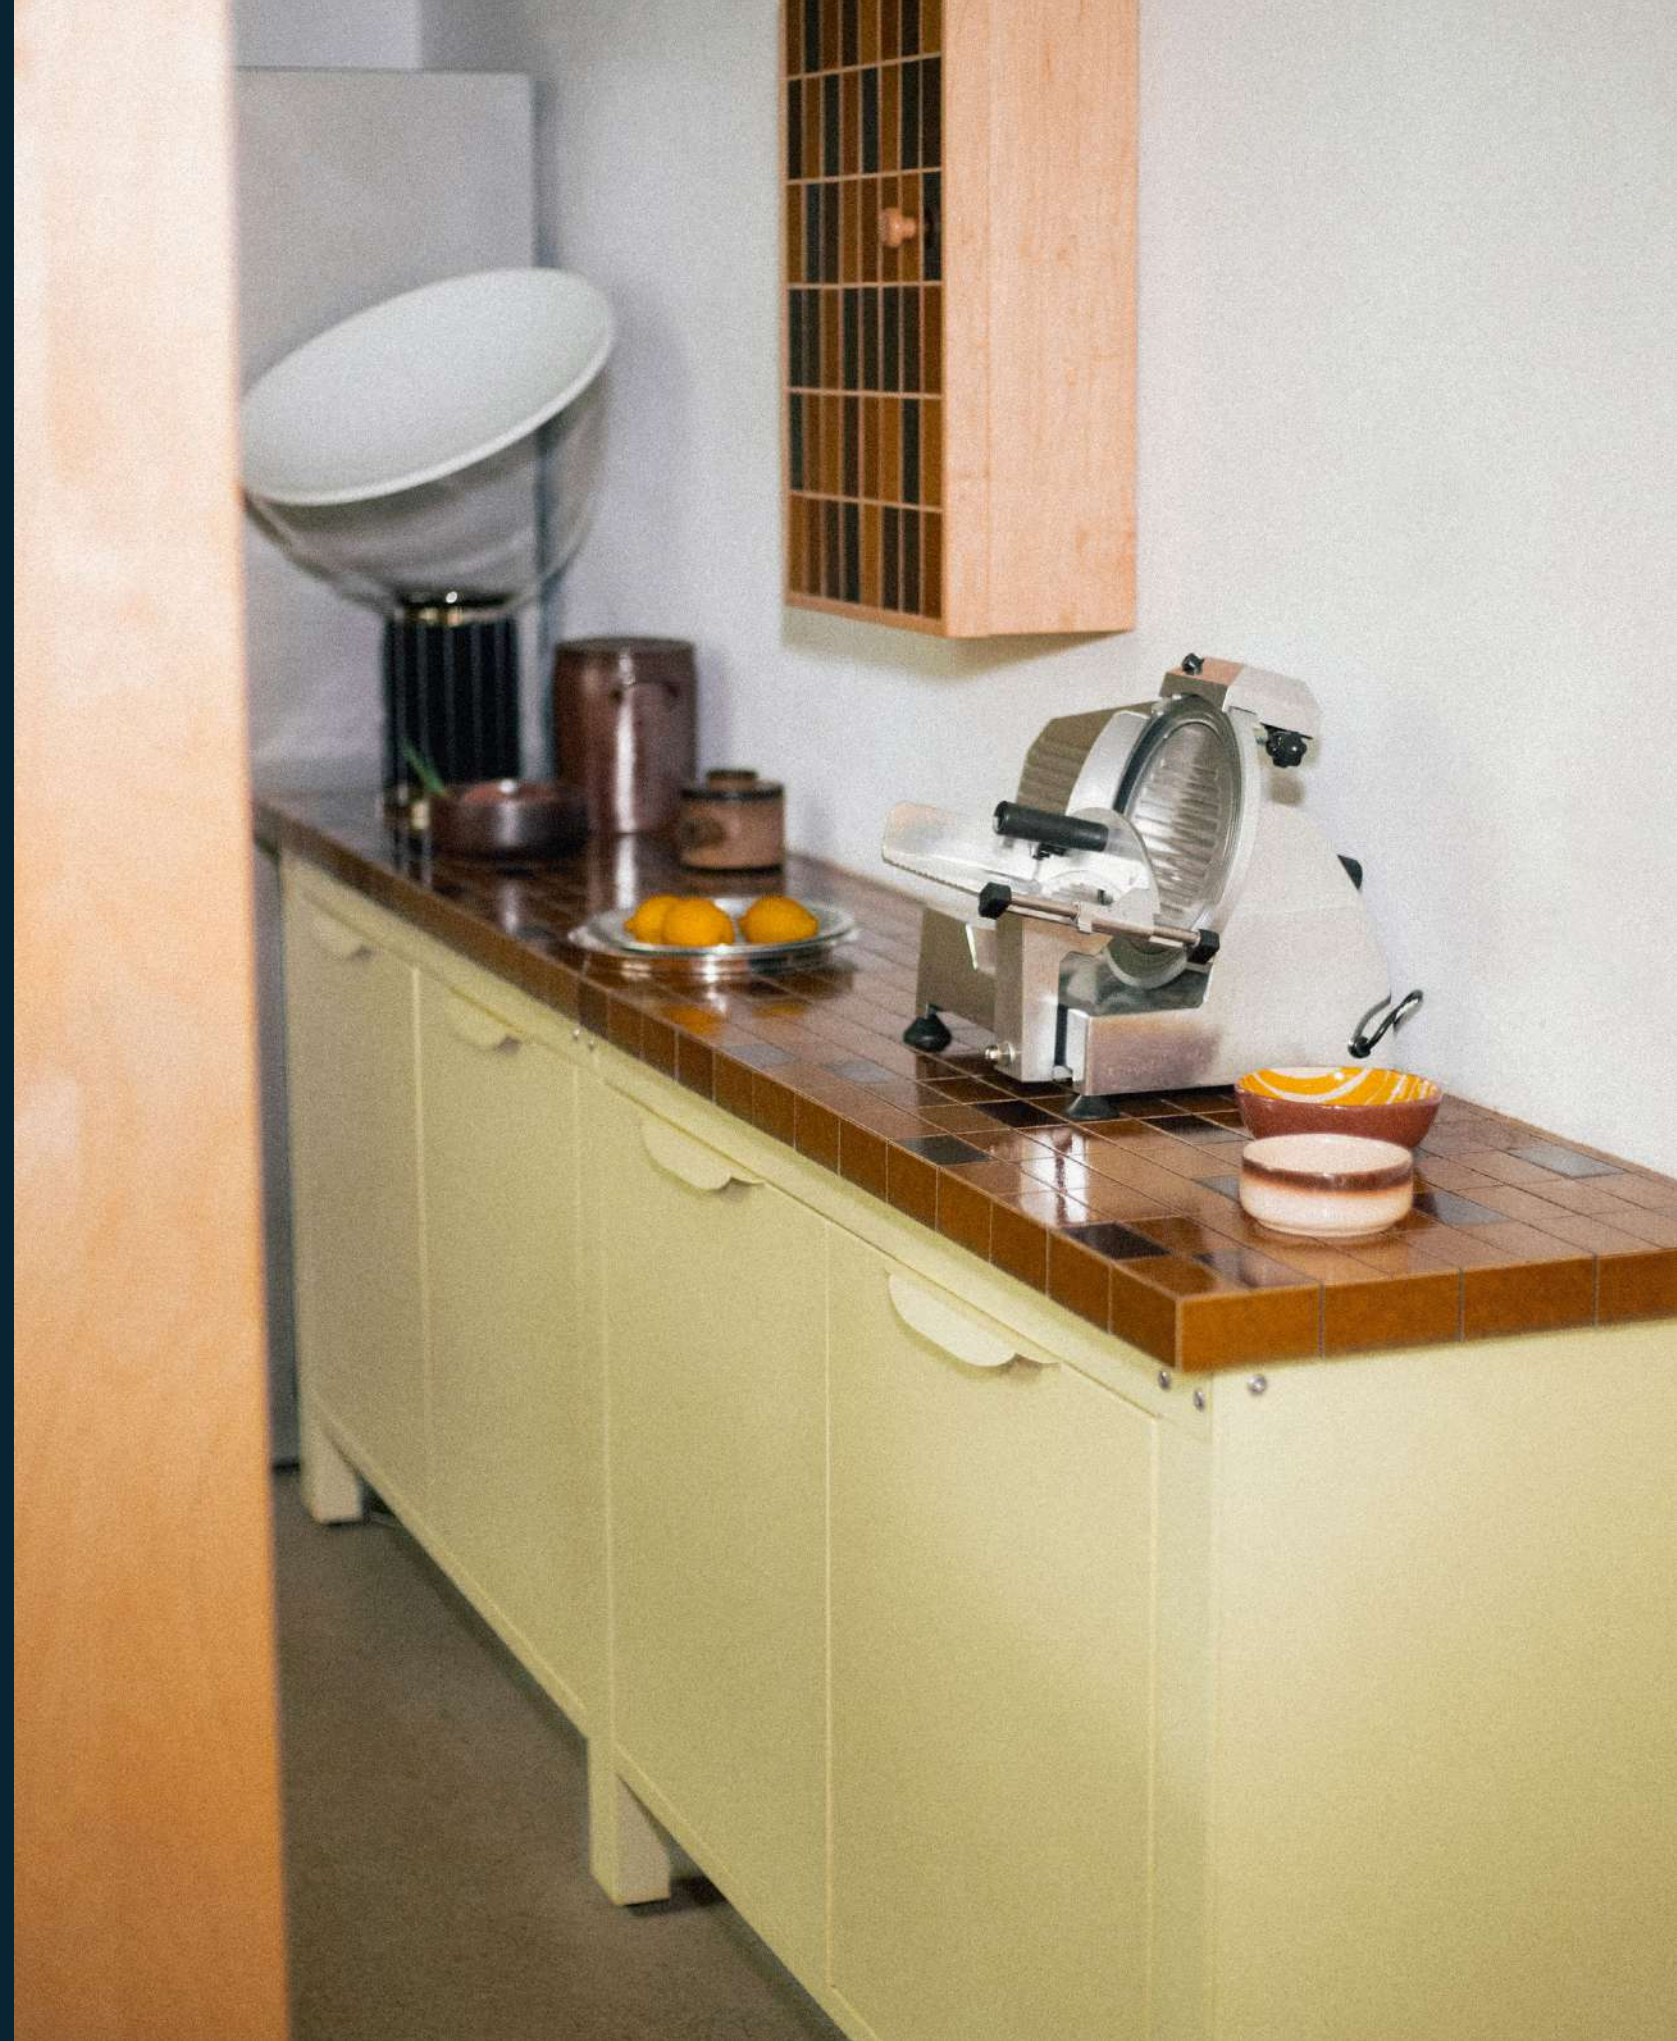

Colorful

Each module can be colored by choosing from seventeen standard colors or by requesting a custom color, and painting is done by the powder process, the most durable finish that can be achieved on a metal material.

Focus on features

Durable

High-end natural stones, technical materials, components and appliances will make your kitchen durable and unique. We are always on the lookout for new elements and suppliers in order to give your kitchen an inimitable style.

Focus on features

Sustainable

Our structures are made from recycled steel, a sustainable material that guarantees strength and durability.

Focus on features

Made in Italy

Entirely made in Italy and produced through the collaboration with the best craftsmen in the industry, our kitchens synonymous with quality.

Focus on features

Outdoor

Our colorful, flexible, sustainable and made in Italy world also enters the outdoor space, offering new and innovative alternatives in the design of the kitchen environment.

Focus on features

Wooden

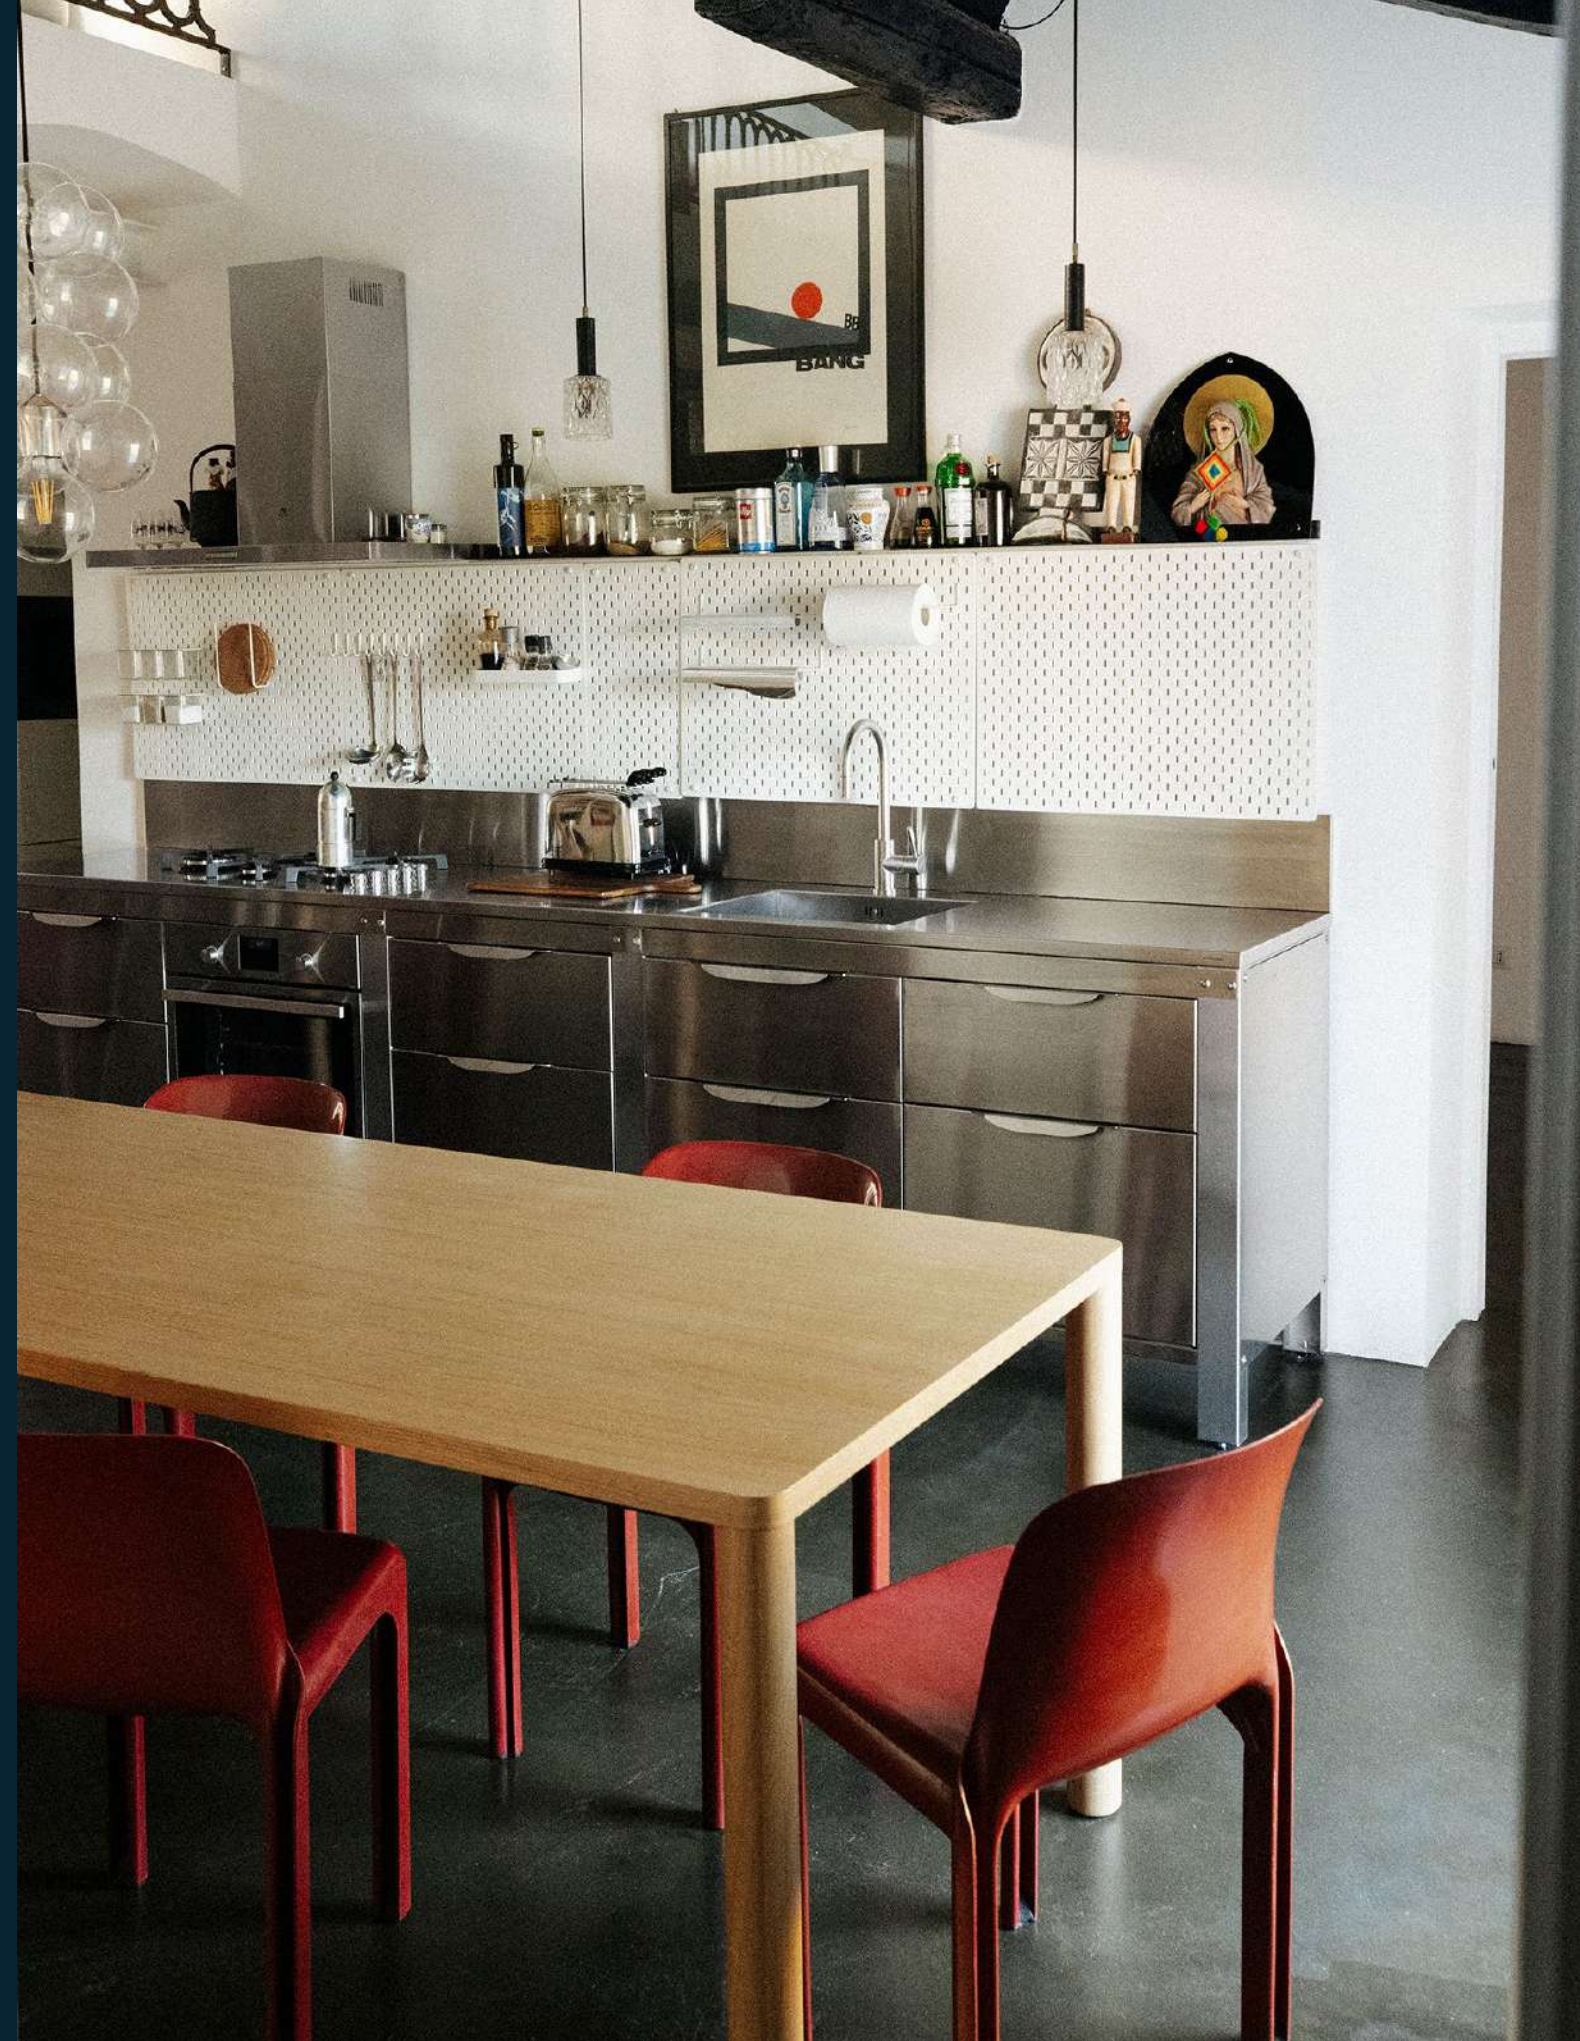

With over a year of research, development of materials and painting techniques, we introduce our first line of wooden kitchens, incorporating semi-industrialised processes to optimise costs and speed up customisation.

Focus on features

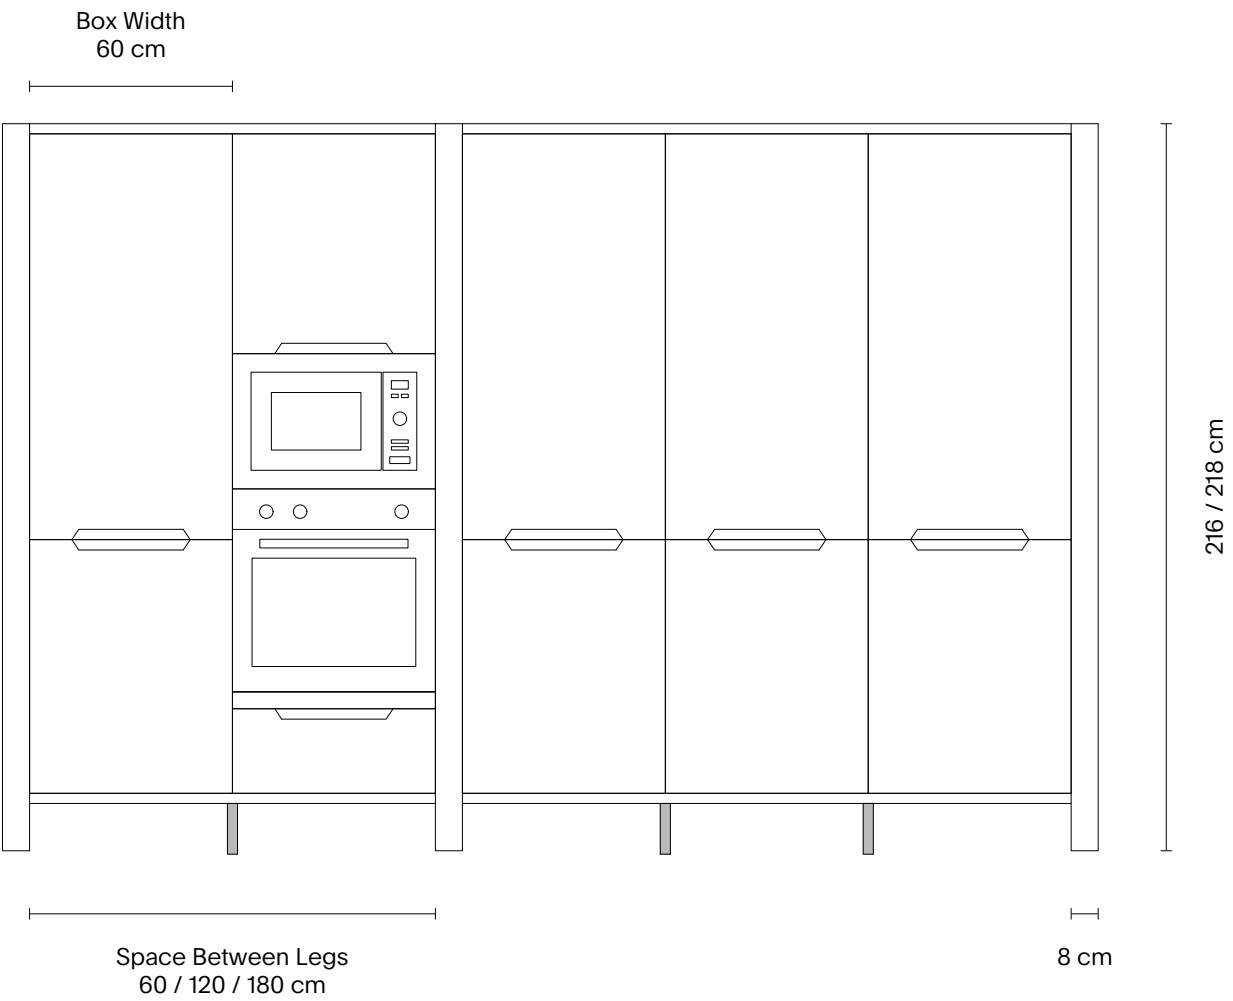

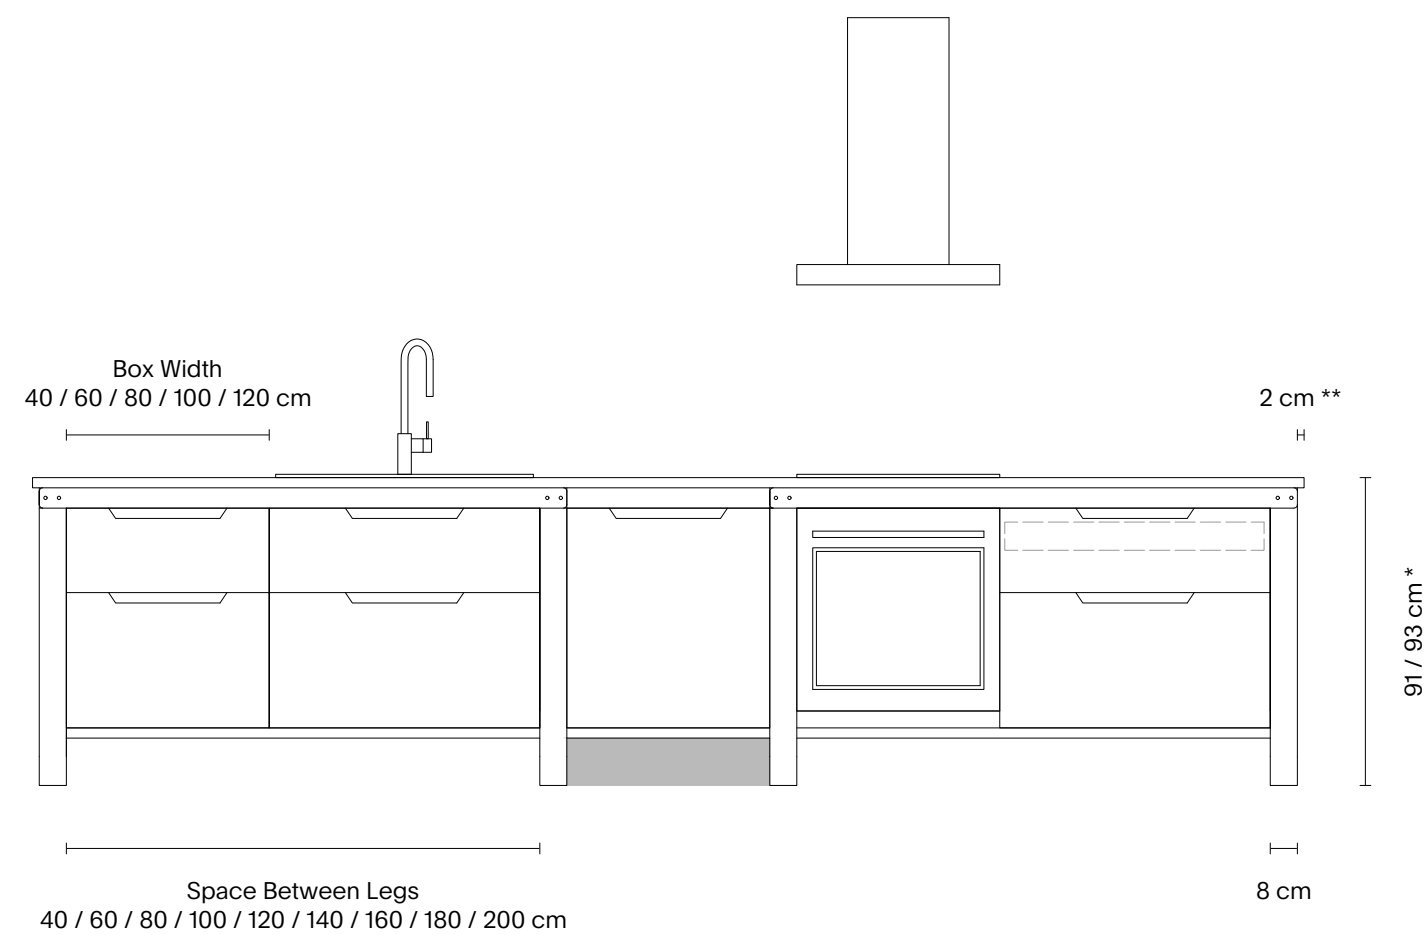

Online configurator

With our online configurator you can easily design the kitchen of your dreams and get an immediate quote of your project.

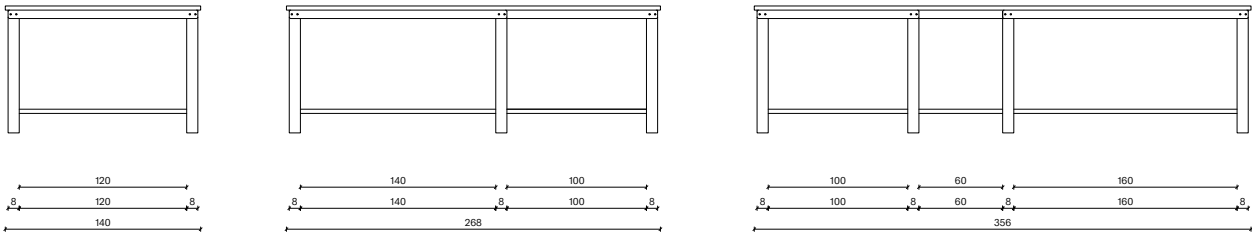

**Now let's talk
about technical
things you
need to know
in order to
design with our
system.**

It's A Very Simple: System

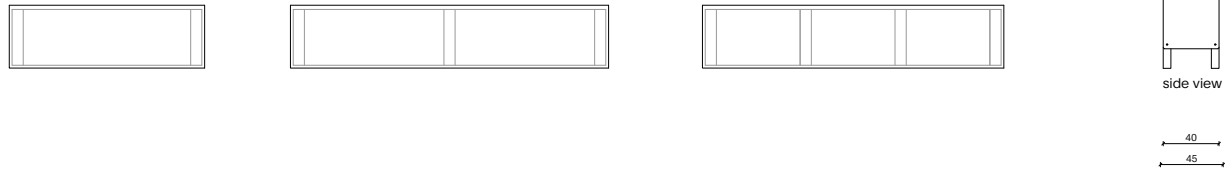

* The height may vary by several centimeters depending on the type of worktop.
** The Standard top protrudes 2 cm on all sides, while in wall-mounted configurations the worktop must protrude at least 3 cm at the back.
