Very Simple: Kitchen

**We design kitchens
that transform
spaces into places
of joy.**

Intro

We approach design with a contemporary and conscious mindset, creating kitchens meant to be lived in and reimagined over time as a form of light architecture, working through an understated presence, balanced proportions, and a bold use of color to transform the perception of the spaces.

Very Simple:

Kitchen

In a standardized world, we go against the flow by designing modular steel kitchens with fully customizable finishes and infinite layout possibilities. Pure, essential design crafted from high-grade, sustainable materials. Engineered around a simple, intuitive assembly system, our kitchens give you the freedom to create your space today and pack it up to take with you tomorrow.

Not your typical kitchen.

Designed around details

Modular

Our system of modular components comes in a diverse range of types and sizes, offering maximum versatility to configure a kitchen for any space and purpose. Truly nomadic, these kitchens can be modified and moved as your needs evolve, designed to change with you.

Designed around details

Colorful

Available in twenty-one signature shades or any custom color, every module features a high-performance powder coat finish. Engineered for maximum durability, it protects the surface and keeps your kitchen looking flawless for years to come.

Designed around details

Durable

Crafted from the innovative technical materials, finest natural stones and premium appliances, each kitchen is a durable and singular expression of its owner's style. The brand's continuous pursuit of exceptional new elements and exclusive suppliers guarantees a creation of unmistakable distinction.

Designed around details

Sustainable

Every single piece of a Very Simple: Kitchen's structure is made from steel, a material that is durable, 100% recycled, and 100% recyclable. Choosing Very Simple: Kitchen means choosing something that genuinely lasts.

Designed around details

Made in Italy

A testament to Italian excellence, each kitchen is entirely made in Italy, born from a collaboration with the industry's most esteemed manufacturers and craftsmen. This dedication makes the products synonymous with exceptional quality.

Designed around details

Outdoor

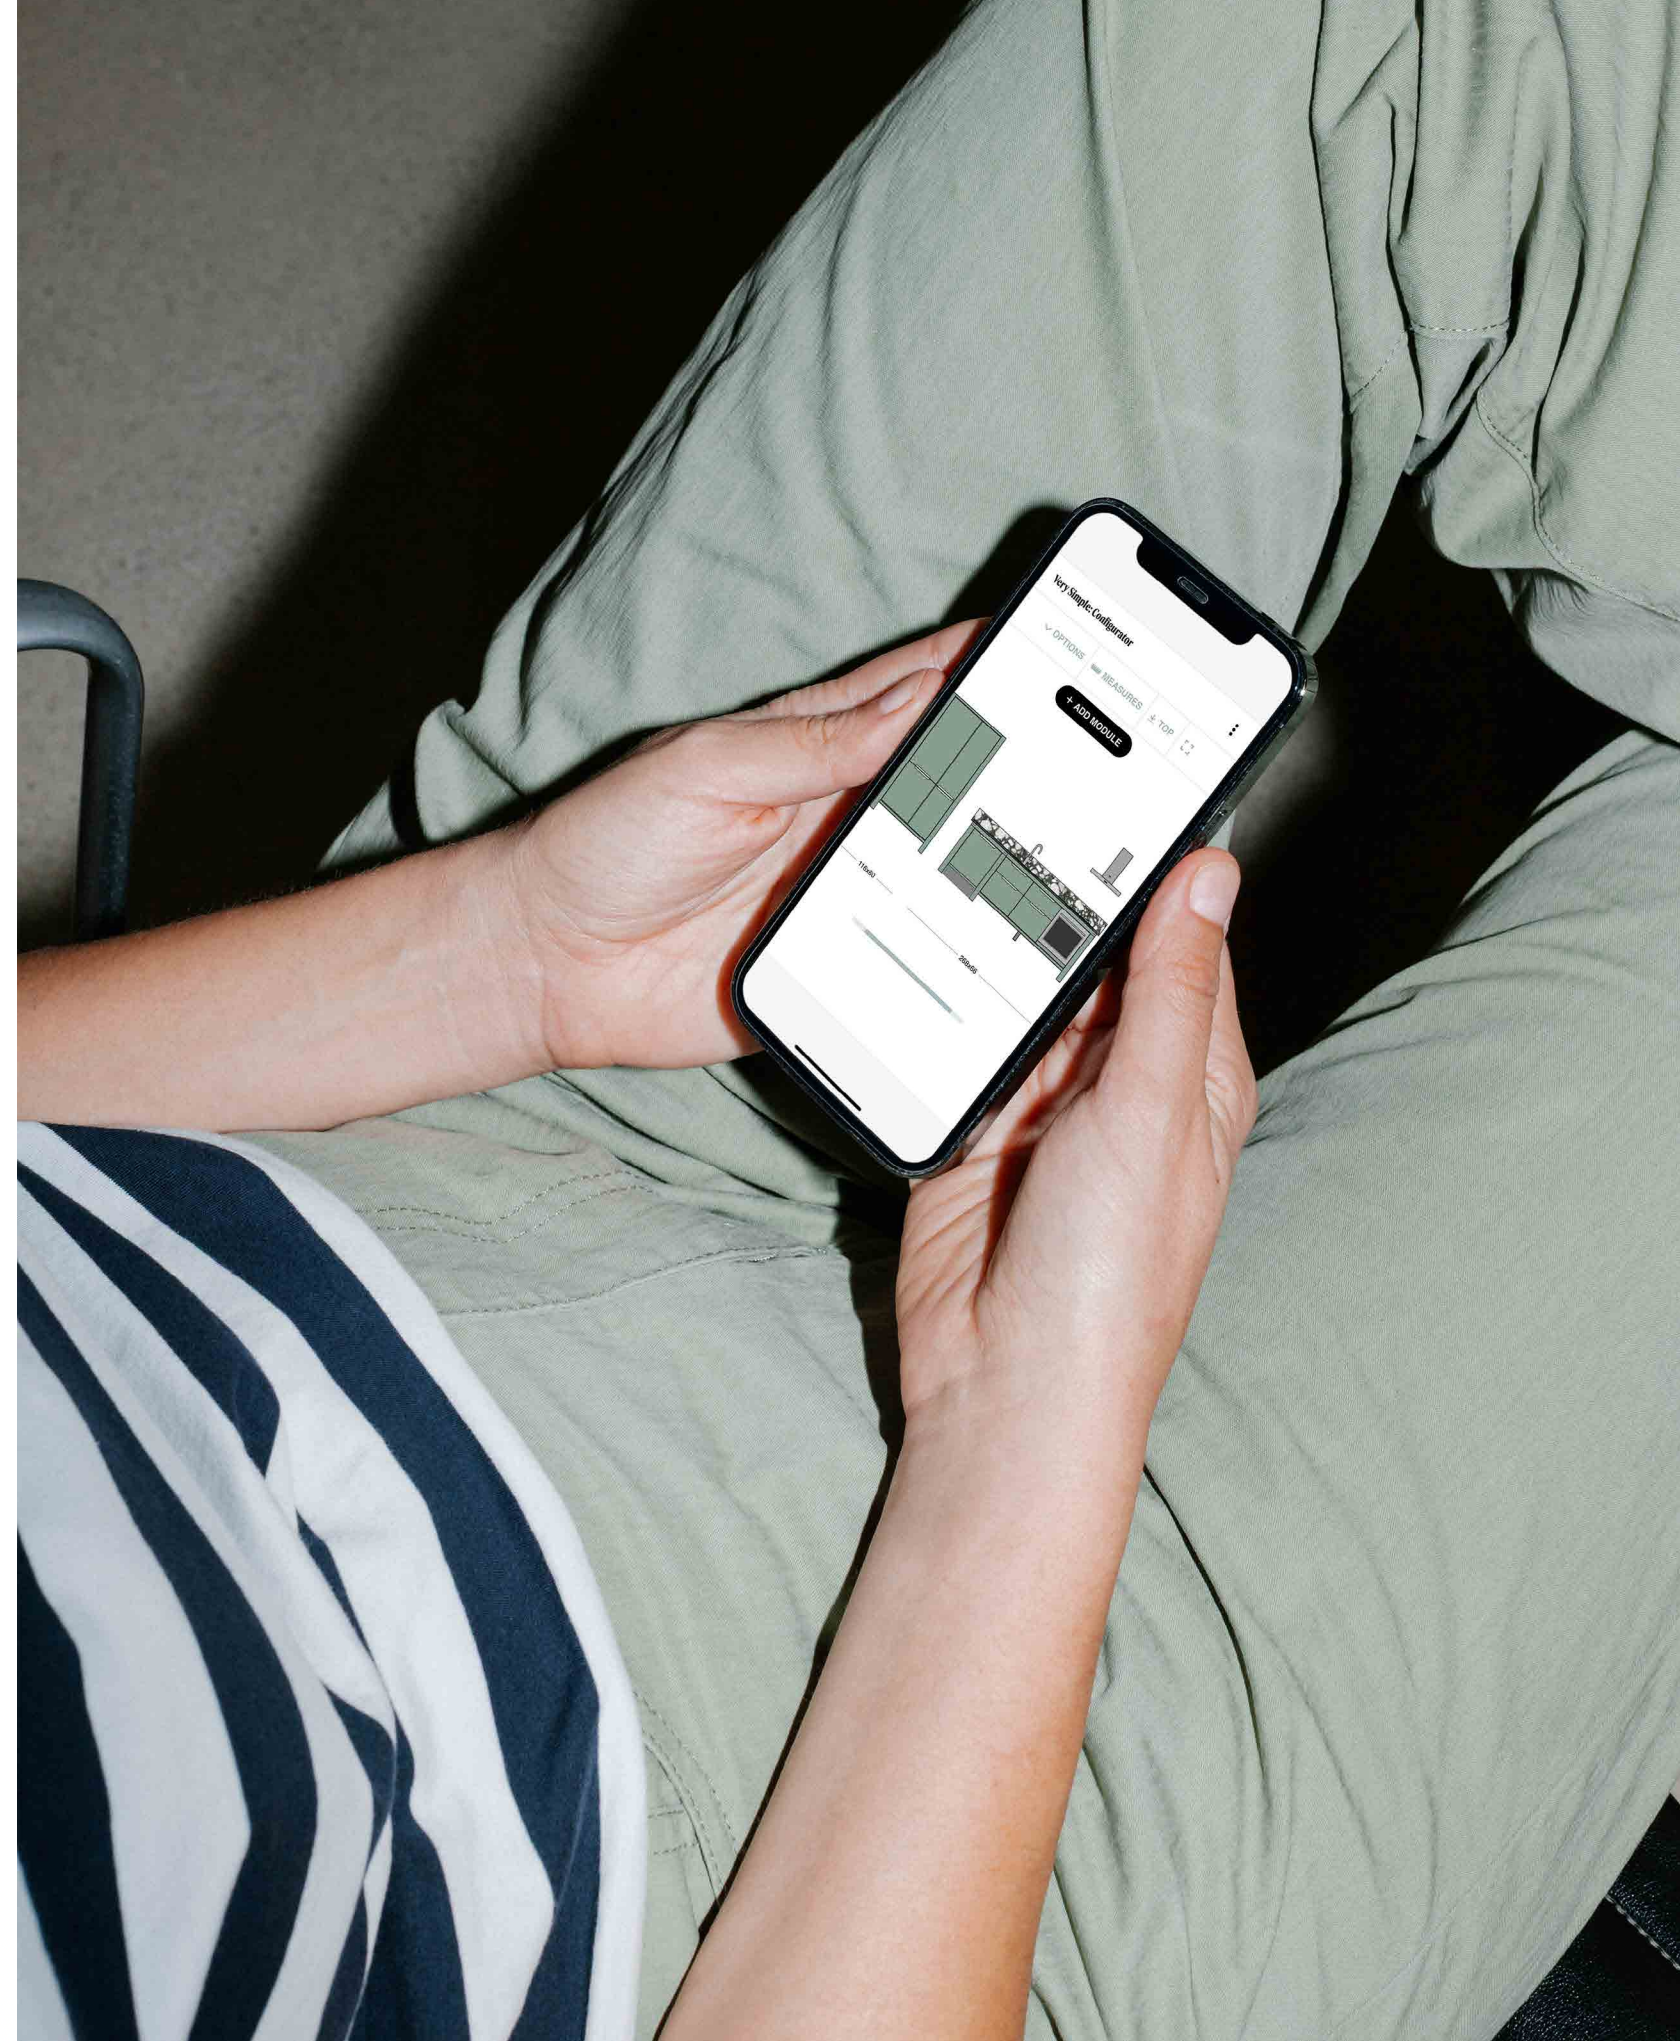

Born in Italy and defined by color, flexibility, and sustainability, the brand's design philosophy now reimagines the outdoor kitchen, offering a new vision for the exterior living spaces.

Online configurator

The intuitive online configurator empowers customers to design their ideal kitchen. Users can experiment with layouts, materials, and finishes to create a space that is uniquely and perfectly tailored to their needs.

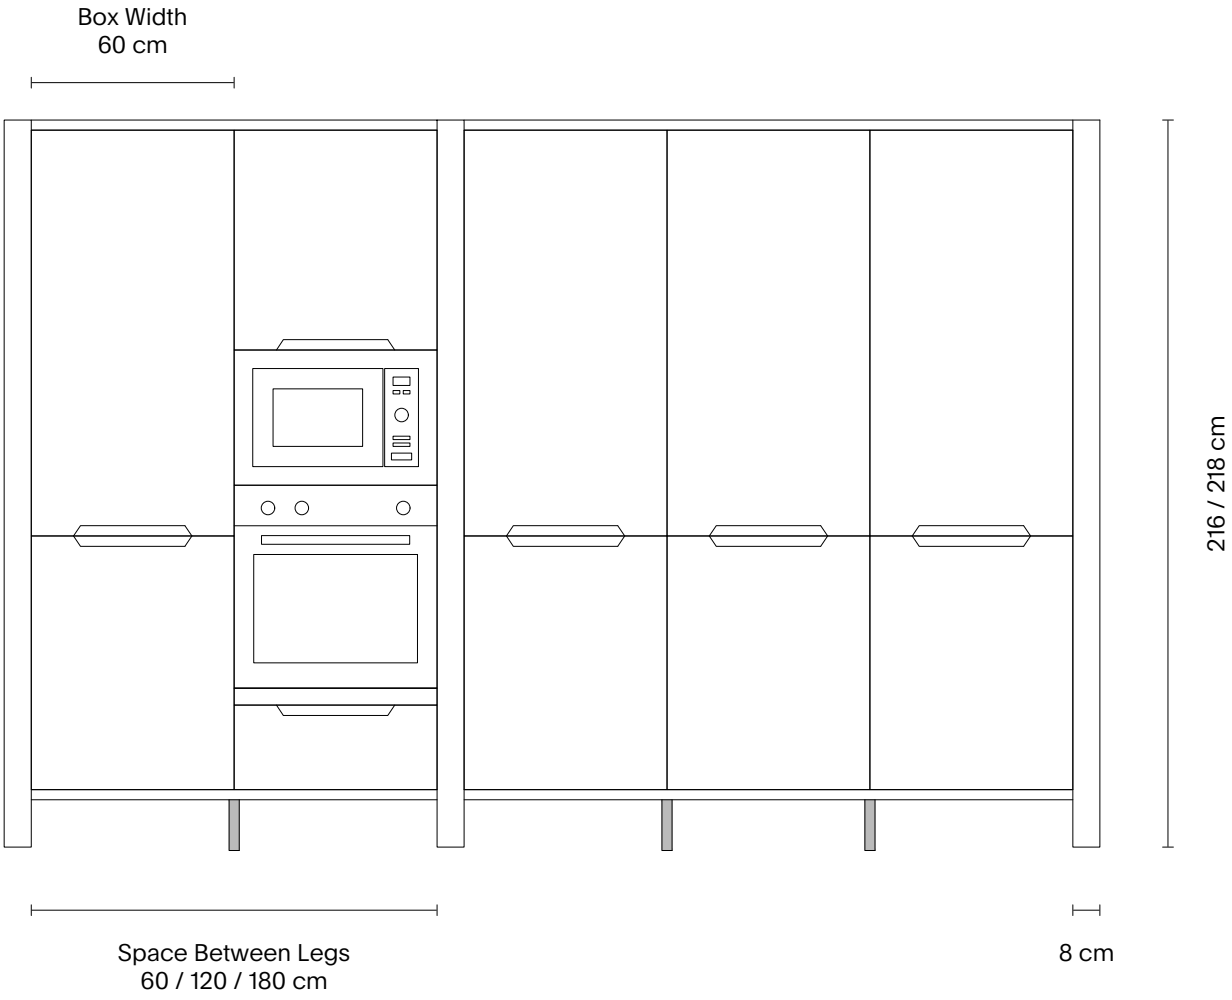

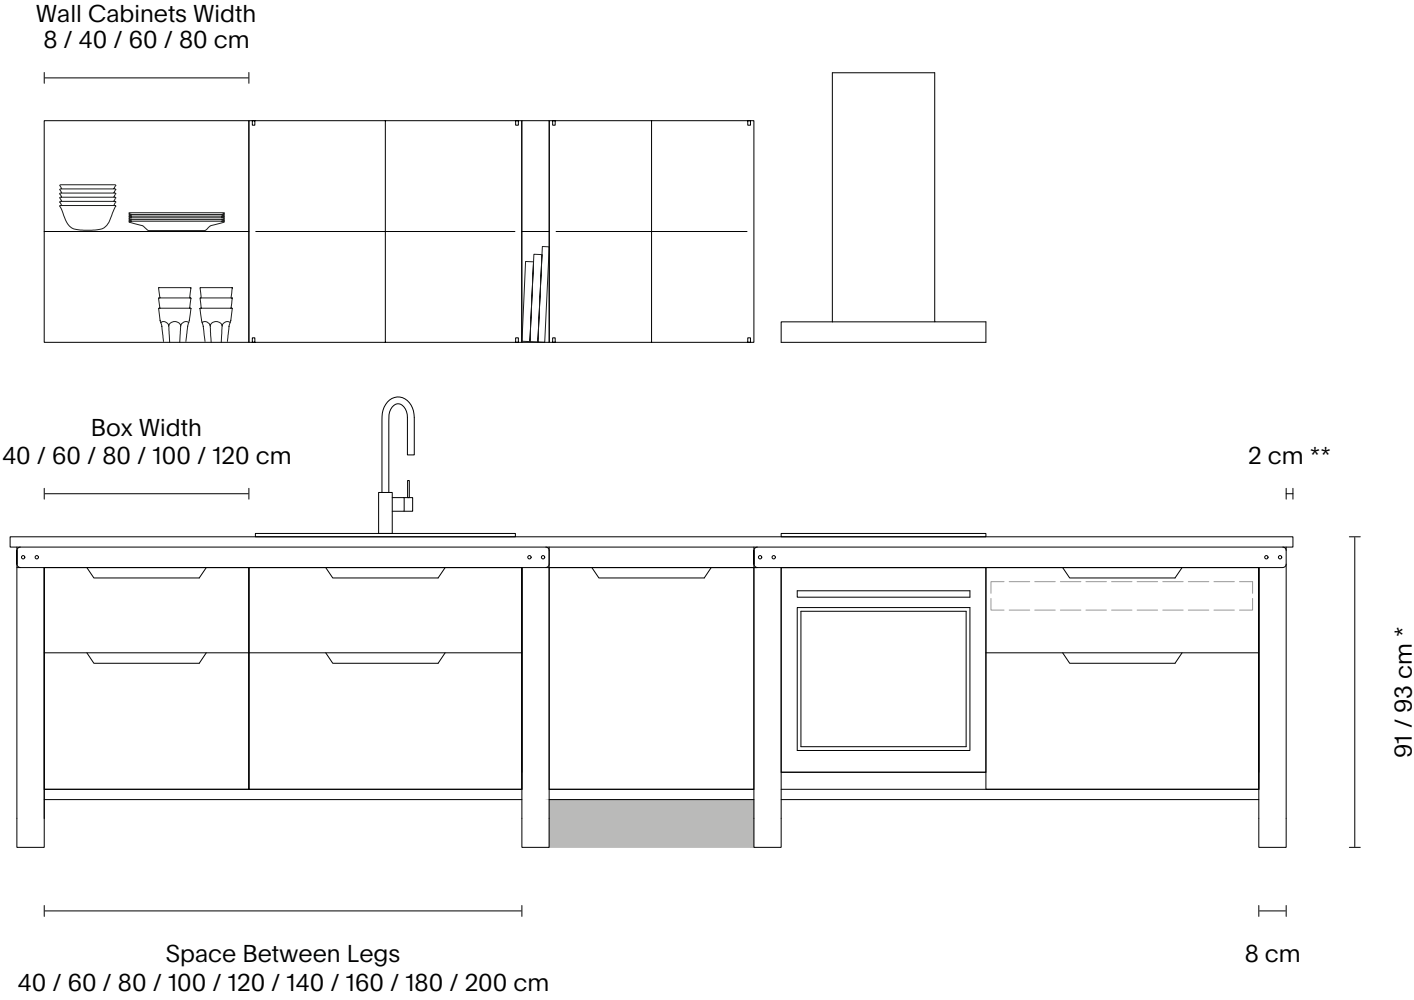

Designing with the system: essential technical concepts

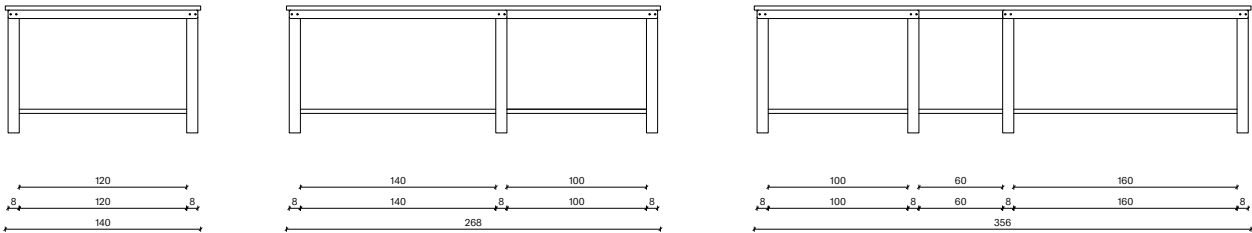

It's a Very Simple: system

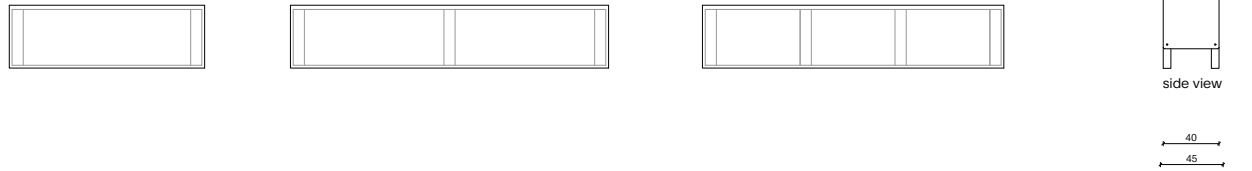

* Overall height may vary by several centimeters based on the worktop type.

** The standard worktop protrudes 2 cm from all sides. For wall-mounted configurations, a minimum overhang of 3 cm is required at the back.
